

What are the strengths of the teaching assistant?

Wise, Tess Elizabeth

Rate the course overall.: 5

Rate your teaching assistant overall.: no answer

you never feel like you're asking a dumb question! Tess answers all question in a clear way. And if you're still confused, she's happy to go over material again. The weekly sections were well organized. I'm glad we got list of discussion Qs ahead of time. Because of the Qs and also the midterm review and slides that Tess prepared, I felt very well prepared to do the essay papers and also take the exams.

Very approachable during section and always responds to e-mails very quickly. I had a technical problem during one of the mid-terms and when I reached out to her she responded within ten minutes. I really appreciated that.

Tess is simply great. She was a vital resource and key interface for the extension school. She is wonderfully talented, courteous and helpful (tough enough grader!!). Her sections were great learning opportunities, she used the technology brilliantly - one of the best TA i have encountered.

Rate your teaching assistant overall.: no answer

nothing to add. She was friendly, knowledgeable on the topics, open to ideas of students, and enthusiastic about essay topics students chose.

Not much to add, she really has it down. I would just ask for some appreciation that ext school folk have time pressures,(not suggesting unreasonableness) i know there needs to be rigor but the deadlines on this course were a problem for me and just that failure to make any would seriously damage grade.
